-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Current Status***

1. This action is responsive to Applicants' amendment of 14 April 2008.
2. Receipt and entry of Applicants' amendment is acknowledged.
3. Claims 1-7 and 9-18 are pending in the application.

The 102 rejection of claims 1-7 under 35 U.S.C. 102(b) as being anticipated by Jenke et al., {US 5,869,728} is maintained for the reason stated in the previous Office Action dated 11/13/2007.

Applicants' arguments filed 14 April 2008 have been fully considered but they are not persuasive. Applicants argue that the order of reaction afforded unexpected result of the product yield. However, the examiner noticed that the prior art process is virtually quantitative; that is, 99% yield and purity of >97%. See example 2. The Examiner, also, notes that there is no significant improvement in terms of unexpected result that the current process provides.

The 103 rejection of claims 1-7 and 9-18 under 35 U.S.C. 103(a) as being unpatentable over Jenker et al., {US 5,869,728} is maintained for the reason stated in the previous Office Action dated 11/13/2007.

Applicants argue that the order of reaction afforded unexpected result of the product yield. However, the examiner notices that the prior art process is virtually quantitative; that is, 99% yield and a purity of >97%. See example 2. The Examiner, also, notes that there is no significant improvement in terms of unexpected result that the current process provides. All the claimed elements were known in the prior art cited and one

skilled in the art could have combined the elements as claimed by known methods with no change in their respective functions, and the combination would have yielded predictable results to one of ordinary skill in the art at the time of the invention.

**THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chukwuma O. Nwaonicha whose telephone number is 571-272-2908. The examiner can normally be reached on Monday thru Friday, 8:30am to 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yvonne (Bonnie) Eyler can be reached on 571-272-0871. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
